

## Student Leadership in Action: Our ICT Tu Rangatira

These student leaders are passionate about technology and play an important role in fostering a positive and innovative digital environment within the school. They are a fantastic resource for both students and staff, offering assistance and sharing their expertise.

### The Coding Club

The Coding Club is a hugely popular initiative run by our ICT Tu Rangatira and their support crew. Open to Year 3 and above, the club meets twice a week, on Mondays and Fridays. Here, students delve into the exciting world of computational thinking, learning the fundamentals of coding in a fun and collaborative environment. This term they have looked at learning how to code through Scratch by making games and small stories. For the younger coders we have been using b-bots and coding mice to learn the basics of inputting a programme to make our mice move where they are directed to. This club not only develops valuable technical skills but also fosters logic, perseverance and a place for like minded individuals to meet and collaborate.
